

# ZIMWORX

## OUTSOURCING REDEFINED

BP Global Solutions Zimbabwe Pvt Ltd operates under the brand, “ZimWorX” and began in 2017 with two team members. Since that time, we have seen tremendous growth and currently employ just under 800 team members with a 2032 Goal to reach 20,000 employees.

The company was started simply to reach Zimbabwe’s most precious resources, its people, while providing quality jobs in a Class A facility to the people. We currently occupy five floors in Joina City, along with our newest corporate office in Trust Towers that houses our Team Experience (HR), Talent Acquisition, and Finance.

Our main channel of business is providing full time support to the Dental and Medical community in North America. We train our teams in a few distinct areas for support in these fields.

We provide a Workplace Wellness team of 8 persons (pastoral care) , who provide daily support through personal contact and prayer as our teams deal with the variety of struggles life has to offer us all.

We are excited about the future, and truly believe in our Mission Statement.

“A Commitment to Excellence While Making a Global Impact for the Kingdom.”
